For years I have suffered from abscesses which always formed on the back of my neck, and had to be cut from time to time to obtain relief. I used all sorts of blood purifiers, but without avail. The abscesses would always reappear. I suffered very much pain until my physician advised me to use the genuine imported Carisbad Sprudel Salts (powder form). I used this for about four weeks, and since that time I have been entirely free from the disease. My complexion cleared, and I have enjoyed good health ever since. entinuation of the Debate in the

Senator Gorman was earnest in the Senate this the whole country. Mr. Gorman proclaimed himself in favor of the rigid exclusion of the Chinese; his record demonstrated that, but in the light of the information conveyed and the President's message he declared the bill ought not now to pass. He gave notice that if the motion to reconsider prevailed he would renew his motion to commit to the foreign relations committee.

Mr. Stewart contended for immediate saying that if the Chinese government intends to act let them act at once. He declared that the Chinese are coming in on the Pacific coast in numbers larger than ever before, and if this bill was bers larger than ever before, and if this bill was the tone of the report, and said that the specifications had been carried out, and that this fact was the company of the contractor. Chinese are coming in on the Pacific coast in numbers larger than ever before, and if this bill was not passed now the question would be left open for another year. He pronounced the treaty a sham and a fraud. Mr. Blair said the spending bill related only to Chinese with certificates, and did not prohibit others from coming.

MR. STEWART REPLIED

that the existing law prohibits the incoming of Chinese laborers, and it is the certificate feature that the people want to get rid of. A REPLY TO MR. VEST.

When Mr. Blair had concluded his remarks, Mr. Dolph took the floor and replied to Mr. Vest's presentation of the alleged case of Chinamen being naturalized in Indianapolis, and of having voted Senator Gorman's motion to commit the bill

THERE MAY NOT BE A SINGLE VOTE AGAINST GRANT-ING THE PRESIDENT ADDITIONAL POWERS. There was a very small attendance in the House There was a very small attendance in the House to-day. The fisheries retaliation business was continued almost at once after prayer. Messrs. Rockwell, Nutting, Hooker and others spoke at length upon the subject, but interest in the matter seems to lag, since there is really no opposition in the House to giving the President the additional power he has asked for. The previous question is to be ordered at 4:30 this afternoon. There may not be a single vote against the proposition. Two English journalists were introduced into the press galiery to-day. One is from the Pall Mail Gazette, the other from the European Associated Press. They are here to watch the progress of the fisheries dispute.

The Reported Outbreak in Canton. Mr. Jno. H. Howlett has been awarded the contract for constructing the new kitchen building at the Washington Asylum for \$2,200.

The State Department had received no information in regard to the reported outbreak at Canton up to a late hour this afternoon. There is on file in the department an official list of American residents in Canton on December 31, 1887. There are about sixty-five or seventy persons, most of them being women and children. It is thought at the Department that the trouble in Canton is probably not very serious, in view of the fact that nothing has been heard from there. Members of the Consular service are under instructions not to telegraph to the Department unless the occasion is sufficiently serious to warrant the expense, which in the present case would be very heavy.

The Boston's Batteries. cruiser Boston have reported that they accom-panied the vessel outside of Sandy Hook on the 29th of August, and witnessed a series of firings on the 4th and 5th inst. from all the guns of the main and secondary batteries. A number of rounds with full charge and projectile were fired rounds with full charge and projectile were fired from each at different elevations. In each case the action of guns, carriages, deck-circles, clips and fastenings was entirely satisfactory. A close examination of all fittings was made after each round, and also at the end of the test, and no weak or doubtful points were observed. The board does not suggest any alterations or improvements as necessary to be made with regard to these particulars, and expresses the opinion that the main battery is thoroughly efficient for service. The secondary battery also proved satisfactory.

Capitel Topics. THE FORTIFICATION BILL.

The House and Senate conferees on the fortification bill are meeting this afternoon. They are confident of coming to an agreement upon a bill it will be a compromise bill and will probably contain the principal features contended for by each house.

The vote on the retaliation bill will not be taken in the House until 4 o'clock to-morrow. In about a week Mr. Mills will go to Virginia to talk tariff reform to the people, and from there he will go to Indiana to take the stump. Bucking Against the Interior Des

ment Building. ANOTHER RUNAWAY TRAN TRIES IT TO-DAY. A runaway horse attempted yesterday, as described in The Star, to run down the Interior Department building on the east front. To-day a pair of runaway horses attached to a closed carriage attempted the same thing on the north side.

Neither attempt was successful. The team to-day rushed down 5th street, and, instead of turning into G street, continued straight on and brought up suddenly against one of the granite piers of the steps. The pole was shattered into pieces and the the horses were scratched somewhat. There was a man and his wife and two children in the hack and they were shaken up and badly frightened, but not hurt. The driver managed to retain his seat on the box. The Department officials are wondering which side of the building some horse will tackle to-morrow.

The Commissioners to-day wrote to the incorporators of the Georgetown and Tenleytown Railroad in answer to their request for a permit to erect poles and wires along High street for the operation of their projected railroad by an overhead electric system. The Commissioners' letter, as foreshadowed in The Star, notifies the incorporators "that the act of incorporation of said road provides 'that the government and direction of the affairs of the company shall be vested in the board of directors,' &c., and that until such board shall have elected and organized there will be no representative of the road to whom the Commissioners can legally issue such a permit."

SIE CHAS TUPPER MAKES A SOMEWHAT NOTABLE SPECE AT A SHEPPIELD BANQUET.

At the cutlers' banquet at Sheffield last night, Sir Chas. Tupper eulogized Mr. Chamberlain's conduct of the fisheries negotiations, and said that no one more acceptable to Americans than Mr. Chamberlain could have been found. With regard for the Tired Brain to the "somewhat extraordinary" message of President Cleveland, he would say that Canada would never adopt a policy, physical or otherwise, that would be detrimental to England. Canada would deal with the flaberies question as its great importance deserved.

The Standard comments mildly on Sir Chaa. Tupper's speech at Sheffield. It says the fact that England and Canada are bound to act together in the matter of the flaberies question cannot be too explicitly announced or too clearly understood.
